Notes:

[1)] Outstanding value on e-money storages is the difference between the value of cash loaded onto an e-money storage and the value spent.

- With the issuance of Bank Indonesia Regulation Number 11/12/PBI/2009 on Electronic Money, on April 13, 2009, electronic money regulation is detached from card-cased payment instrument regulation.
Electronic money regulation consist of requirements and procedures for licensing, guideline of electronic money's activity, oversight and sanction, also enhancement of technology security.

- Since the implementation of the Integrated Commercial Bank Report (LBUT) in January 2022, there are changes in granularity of the reporting dimensions. Cash transactions are the sum of cash withdrawal and deposit transactions. Meanwhile, shopping transactions are the sum of shopping and payment transactions.
